Subject: Barstow CAL VET response

For those of you who are unfamiliar, the Barstow Veterans Home is being considered for closure by California. More information is below.

ALCON:

I finally got a response from Barstow concerning whether they are accepting applications. They are; however, they are waiting till around Feb to see what their position is going to be with the state. As I mentioned, they are going through Stakeholders meeting to see what, if anything will happen to this facility. Here are a couple of options per admissions.

Close entire facility, next FY

Change what type of facility they we morph into; close their independent living accommodations and possibly the intermediate care as well and just do long term care (brings in more money)

Do nothing and continue as is.

Again, Please reach out to your veteran organizations to have them send in a letter to Governor Newsom in support of this facility and if you have not as an organization, please do so as well.

Regards,

“SQ”
